

**SPRING
2024**

CAREER & GRADUATE SCHOOL FAIR

**Tuesday
January 30th
9am-2:30pm**

Fidel 3rd floor ballrooms

Sponsored by

**Sandia
National
Laboratories**

**TOURO
UNIVERSITY
NEVADA**

Welcome to the Fair!

Recruiters:

Thank you for coming to New Mexico Tech's Spring 2024 Career and Graduate School Fair. We are excited to host you on campus and hope you enjoy your visit. Your participation is key to the success of this event, and we truly appreciate you being here.

Students, Alumni, Faculty, and Staff:

Thank you for attending this great event. The organizations in attendance at this Fall's event have many outstanding opportunities available to Tech students and graduates and we hope you are able to meet with many of the recruiters.

The Career Services Office is committed to working with all Tech students and alumni in the achievement of your career-related goals. Please come chat with us during the fair or stop by, email, or call after the fair if we can assist you in any way.

Thank you again for attending the Spring 2024 Career and Graduate School Fair. And thank you for helping us make this event happen.

Sincerely,

The Staff of Center for Student Leadership
and Engagement:

Sophie Bauer, Assistant Director and
Career Services Coordinator
Koreen Kerfoot, Director
Valerie Maez, International Student
Specialist

Full-Time.....	26
Internship.....	26
Graduate School	26
Fellowship	26

Tips to Succeed at the Fair:

- **Do your homework.** Know which organizations are in attendance, what they do, and what types of things are happening in their industry.
- **Have a game plan.** Instead of trying to talk to each and every recruiter, decide which organizations are the best fit, and focus on talking with those representatives.
- **Dress professionally.** Clean, pressed clothing is a must.
- **Prepare your “elevator pitch,”** the introduction you give when approaching a recruiter. Include your name, major, class, a little bit about your experience, and why you want to join that particular organization.
- **Get as much information as possible.** This is your chance to learn about the organization, so ask questions.
- **Remember why you are here.** It’s okay to take a free giveaway after talking with the recruiter (they have some cool things!), but don’t attempt to get one of everything.
- **Ask to leave your resume** and try to get business cards or contact information from each representative.
- **Follow up.** If you need to apply online or submit your resume by email, do so as soon as possible. If you had a great conversation, send a thank you email.

Thank you to
our sponsor!

3D Glass Solution*

www.3dglassolutions.com

3D Glass Solutions, Inc. (3DGS) is a private late-stage high-tech manufacturing business headquartered in Albuquerque, New Mexico. 3DGS' main operations are focused on the fabrication of electronic system and devices using photo-definable glass-ceramics. 3DGS manufactures a wide variety of glass-based system-in-package (SiP) devices and components using its patented low-loss photosensitive APEX® Glass technology for applications in RF electronics, photonics, automotive radar, integrated circuit electronics, medical, aerospace, defense, wireless infrastructure, mobile handset, and Internet of Things (IOT) industries.

Majors: Mechanical Engineering, Materials Engineering, Electrical Engineering, Chemical Engineering

Jobs: Full-Time

Air Force Civilian Service (AFCS)

Air Force Test Center (AFTC) - STEM

www.aftc.af.mil

The Air Force Test Center (AFTC), headquartered at Edwards Air Force Base, California, about 31 miles north of Lancaster, leads the Test and Evaluation (T&E) mission, conducts developmental T&E and evaluation of air, space, and cyber systems to provide timely, objective, and accurate information to decision makers. The AFTC has an exceptionally rich history, and continues to be the center of excellence for flight, ground, and cyber test. The Center's focus today, and in the future, is summed up in our motto: "Ad Inexplorata ...Toward the Unexplored." AFTC has oversight of work carried out at three primary locations across Air Force Materiel Command (AFMC). Organizations include: 96th Test Wing, based at Eglin AFB, Florida; 412th Test Wing, based at Edwards based at Arnold AFB, Tennessee and multiple operating locations across the country.

Majors: Mechanical Engineering, Materials Science & Engineering, Energy Engineering, Electrical Engineering, Computer Engineering, Civil Engineering, Environmental Engineering, Chemical Engineering, Biomedical Engineering, Aerospace Engineering

Jobs: Full Time, Internship

Air Force Nuclear Weapons Center

www.afnwc.af.mil

The Air Force Nuclear Weapons Center (AFNWC) is the nuclear-focused center within Air Force Materiel Command (AFMC) synchronizing all aspects of nuclear materiel management on behalf of the AFMC commander in direct support of Air Force Global Strike Command (AFGSC). Headquartered at Kirtland Air Force Base, New Mexico, the center has about 1,300 personnel assigned at 18 locations worldwide and consists of four major execution directorates: Air Delivered Capabilities; Intercontinental Ballistic Missile (ICBM) Systems; Nuclear Command, Control, and Communications (NC3) Integration; and Nuclear Technology and Integration. It also has several functional directorates, such as Financial Management, Contracting, etc. Its commander is dual-hatted as the Air Force Program Executive Officer (PEO) for Strategic Systems

Majors: All majors

Jobs: Full Time, Part Time, Internship

Air Force Sustainment Center-Tinker Air Force Base

www.afciviliancareers.com

CIVILIAN CAREERS
Tinker Air Force Base, Oklahoma

Must be a U.S. citizen to apply. All positions we are recruiting for are civilian federal employee positions; not active duty military. Tinker Air Force Base has a mission to maintain and repair Air Force aircraft. The most common planes Tinker repairs are the B-52 Stratofortress, KC-135 Stratotanker, E-3 Sentry (also known as the AWACS), and the B-1B Lancer. Tinker is also responsible for repair and overhaul of approximately half of all engines owned by the Air Force. To meet this mission, Tinker employs approximately 1,600 civilian scientists & engineers.

Majors: Mechanical Engineering, Materials Science & Engineering, Electrical Engineering, Computer Engineering, Aerospace Engineering, Computer Programming, Computer Science, Cybersecurity

Jobs: Full-Time, Internship

Applied Research Associates

www.ara.com

Applied Research Associates, Inc. is an employee-owned international research and engineering company recognized for providing technically superior solutions to complex and challenging problems in the physical sciences. The company, founded in Albuquerque, NM, in 1979, currently employs over 1,700 professionals and continues to grow. ARA offices throughout the United States and Canada provide a broad range of technical expertise in defense technologies, civil technologies, computer software and simulation, systems analysis, environmental technologies, and testing and measurements. For additional information and an opportunity to join this unique workplace, please apply at careers.ara.com.

Majors: Mechanical Engineering, Materials Science & Engineering, Electrical Engineering, Computer Engineering, Aerospace Engineering, Computer Programming, Computer Science, Cybersecurity

Jobs: Full-Time, Internship

CMC

www.cmc.com

CMC is a global metals company on the Fortune 500 list, that places our employees and customers at the center of everything we do. When you join CMC, you are joining a company that is committed to delivering industry-leading customer service, improving our communities and creating value for our investors, while supporting you as an employee by providing an environment that empowers you to succeed and grow in your career.

Majors: Mechanical Engineering, Materials Science & Engineering, Electrical Engineering, Civil Engineering, Environmental Engineering

Jobs: Full-time, Internship

Cobb, Fendley & Associates*

www.cobbfendley.com

In 1980, CobbFendley was formed in Houston, Texas to provide professional civil engineering and land surveying services. Through our relationships, the quality of our work, and responsiveness, CobbFendley has grown into a top-ranking consulting firm. Our geographic reach and service areas continue to evolve as we attract top professionals and clients. Our flexibility and integrated services result in a client-centered approach that allows projects, ranging from quick-turnaround field work to multi-year highway projects, to seamlessly move from concept to completion.

Majors: All majors

Jobs: Full-time, Internship

Colorado School of Mines*

www.mines.edu

Colorado School of Mines is an elite public research university in Golden, Colorado devoted to engineering and applied science. Since its founding in 1874, it has become one the few institutions in the world having broad expertise in resource exploration, extraction, production and utilization. Its rigorous curriculum and research programs emphasize responsible stewardship of the earth and its resources.

Majors: Cyber Security, Computer Science, Geology/Mining, Environmental Management & Sciences, Earth Sciences, Statistics, Physics, Mathematics, Chemistry, Astronomy/Space Exploration, Mechanical Engineering, Materials Science & Engineering, Energy Engineering, Electrical Engineering, Computer Engineering, Civil Engineering, Environmental Engineering, Chemical Engineering, Aerospace Engineering

Jobs: Graduate school

Core Lab

www.corelab.com

Established in 1936, we have built a solid reputation as a global provider of proprietary and patented reservoir description and production enhancement services and products for the oil and gas industry. We develop innovative, tailored services and cutting-edge products to optimize reservoir performance and maximize hydrocarbon recovery, addressing our clients' evolving needs.

Majors: Not listed

Jobs: Full time, Internship

Defense Threat Reduction Agency

www.dtra.mil

DTRA, through its trans-regional focus and strong partnerships, protects U.S. National Security interests in a rapidly evolving, globalized threat environment to enable a greater understanding of our adversaries and provide solutions to WMD threats in an era of Global Power Competition. The current Department of Defense Strategy for Countering Weapons of Mass Destruction focuses on reducing incentives; increasing barriers; managing risk; and denying the effects of current and emerging WMD threats through layered, integrated defenses. For DTRA, to counter and deter WMD and emerging threats in the pursuit of these objectives includes initiatives across the continuum of competition and conflict.

Technip Energies*

www.technipenergies.com

With approximately 15,000 employees, Technip Energies is one of the largest engineering and technology companies globally, with leadership positions in LNG, hydrogen and ethylene as well as growing market positions in sustainable chemistry and CO2 management. In addition, the new company will benefit from its robust project delivery model and extensive technology, products and services offering. The company comprises the Technip Energies segment, including Genesis – a leader in advisory services and front end engineering.

Majors: Mechanical Engineering, Electrical Engineering, Civil Engineering, Chemical Engineering

Jobs: Full-Time, Internship

The Mosaic Company*

www.mosaicco.com

The Mosaic Company is the world's leading integrated producer of concentrated phosphate and potash—two of the three most important nutrients in agriculture. We employ more than 13,000 people in six countries to serve farmers all over the world. The people of Mosaic work with purpose to maximize efficiencies and minimize our environmental footprint. We strive to be a thoughtful and engaged neighbor, using our financial resources, expertise and innovative spirit to commit to good corporate citizenship.

Majors: Computer Science, Mechanical Engineering, Electrical Engineering, Computer Engineering, Civil Engineering, Environmental Engineering, Chemical Engineering

Jobs: Full-Time, Internship, Co-Op, Part-Time

The National Radio Astronomy Observatory (NRAO)*

www.nrao.edu

Founded in 1956, the NRAO provides state-of-the-art radio telescope facilities for use by the international scientific community. NRAO telescopes are open to all astronomers regardless of institutional or national affiliation. Observing time on NRAO telescopes is available on a competitive basis to qualified scientists after evaluation of research proposals on the basis of scientific merit, the capability of the instruments to do the work, and the availability of the telescope during the requested time. NRAO also provides both formal and informal programs in education and public outreach for teachers, students, the general public, and the media.
