Fall 2021 Career & Graduate School Fair
Tuesday, September 14th
Fidel Ballrooms

Sponsored by: Sandia National Laboratories

The place to be so awesome that people think you are a myth!
Welcome to the Fair!

Recruiters:
Thank you for coming to New Mexico Tech’s Fall 2021 Career and Graduate School Fair. We are excited to host you on campus and hope you enjoy your visit. Your participation is key to the success of this event, and we truly appreciate you being here.

Students, Alumni, Faculty, and Staff:
Thank you for attending this great event. The organizations in attendance at this Fall’s event have many outstanding opportunities available to Tech students and graduates and we hope you are able to meet with many of the recruiters.

The Career Services Office is committed to working with all Tech students and alumni in the achievement of their career-related goals. Please come chat with us during the fair or stop by, email, or call after the fair if we can assist you in any way.

Thank you again for attending the Fall 2021 Career and Graduate School Fair. And thank you for helping us make this event happen in a safe but engaging manner.

Sincerely,

The Staff of Student Affairs:

Michael Voegerl, Director
Tristine Hayward, Assistant Director
Valerie Maez, Specialist
Quinn Bustos, Student
Victoria Cessac, Student
Luis Silva Alvarez, Student

Fall Fair Participants

U.S. NAVY OFFICER RECRUITING ALBUQUERQUE...8
X-Bow Systems Inc. ...........................................8
Tips to Succeed at the Fair:

- **Do your homework.** Know which organizations are in attendance, what they do, and what types of things are happening in their industry.

- **Have a game plan.** Instead of trying to talk to each and every recruiter, decide which organizations are the best fit, and focus on talking with those representatives.

- **Dress professionally.** Clean, pressed clothing is a must.

- **Shake hands firmly** while maintaining eye contact and smiling.

- **Prepare your “elevator pitch,”** the introduction you give when approaching a recruiter. Include your name, major, class, a little bit about your experience, and why you want to join that particular organization.

- **Get as much information as possible.** This is your chance to learn about the organization, so ask questions.

- **Remember why you are here.** It’s okay to take a free giveaway after talking with the recruiter (they have some cool things!), but don’t attempt to get one of everything.

- **Ask to leave your resume** and try to get business cards or contact information from each representative.

- **Follow up.** If you need to apply online or submit your resume by email, do so as soon as possible. If you had a great conversation, send a thank you email.
Interviews

- Puget Sound Naval Shipyard and Intermediate Maintenance Facility
  9/15 in the Student Affairs Office, Fidel 262

- Sandia National Labs
  9/14 in the Student Affairs Office, Fidel 262

- Trinity Consultants
  9/15 Virtually

Info Sessions

- Vanderbilt School of Engineering
  9/15 from 4pm-5pm on Zoom: https://vanderbilt.zoom.us/j/5185056379
Adelante Development Center, Inc.*
http://www.GoAdelante.org

Description: Adelante is a nonprofit agency that provides individualized support services for over 1000 New Mexicans with mental, physical, and developmental disabilities, as well as disabled veterans and the elderly. We are known for innovation and Adelante has expanded regularly since opening our doors in 1978 to meet the needs and goals of the people we support.

Majors: All Majors
Jobs: Full-Time

Applied Materials*
http://www.appliedmaterials.com

Description: Applied Materials is the leader in materials engineering solutions used to produce virtually every new chip and advanced display in the world. Our expertise in modifying materials at atomic levels and on an industrial scale helps our customers transform their ideas into reality. We are recruiting individuals graduating in 2021-22 with a Bachelors or Masters in Materials Science, Chemical Engineering, or other relevant major for our Process Support Engineer Development Program! This program offers opportunities in the following locations: Chandler, AZ; Dallas, TX; Hillsboro, OR; Boise, ID; Malta, NY. We offer competitive salaries, comprehensive benefits, 401(k), tuition reimbursement, relocation assistance and so much more!

Majors: Physics, Chemistry, Mechanical Engineering, Materials Science & Engineering, Electrical Engineering, Chemical Engineering, Biomedical Engineering
Jobs: Full-Time

Granite
https://www.graniteconstruction.com

description: We believe great ideas are born from great partnerships. From the largest, most complex infrastructure projects to the smallest construction jobs, from transportation to power to water projects, we’re putting our commitment to collaboration to work. As one of the nation’s largest diversified infrastructure providers and construction materials producers, we strive to provide our customers with the highest standards of quality, safety and service. We believe that when committed people work together, you generate more value at every level and build a better world for everyone.

Majors: Mineral Engineering, Earth and Environmental Sciences, Mechanical Engineering, Materials Engineering, Civil/Environmental Engineering.
Jobs: Full-Time, Internship

Honeywell FM&T
https://kcnsc.doe.gov/

Description: In Kansas City, Honeywell manages the U.S. Department of Energy’s Kansas City National Security Campus. This state-of-the-art engineering and manufacturing facility produces a wide array of intricate components to enhance the safety and security of our nation’s defense program. When our employees are asked what they like about working at the Kansas City National Security Campus, the answer is loud and clear: pride in supporting a national security mission at a premier engineering and manufacturing site. Employees also like the opportunity to work with smart, highly-skilled people. We take seriously the responsibility to create a stimulating workplace by helping employees develop and grow through special assignments, job rotations and more.

Majors: Computer Science, Information Technology, Physics, Mathematics, Mechanical Engineering, Materials Engineering, Electrical Engineering, Chemical Engineering, Physics, Management
Jobs: Full-Time, Intern

Intel Corporation*
www.intel.com

Description: At Intel, our vision is to create and extend computing technology to connect and enrich the lives of every person on earth. For interns or college graduates like you, that means having access to amazing career-building opportunities with a global impact. Whether you’re interested in manufacturing, engineering, marketing, or many other high tech business functions, you’ll experience it at a scale and level of expertise that’s hard to match anywhere on the planet. So join our culture of innovation and exploration and enjoy the many experiences and perks we have to offer as you help us pioneer advances in hardware, software, education, energy, and many other fields. Come explore all we have to offer. www.intel.com/jobs/usa/students.

Jobs: Full-Time, Internships.

Lovelace Biomedical Research Institute*
http://www.lovelacebiomedical.org

Description: The Lovelace Biomedical Research Institute (LBRI), has the mission to serve humanity through research on the prevention, treatment, and cure of respiratory disease.

Majors: All Majors.
Jobs: Full-Time.
New Mexico Department of Transportation

http://dot.state.nm.us/content/nmdot/en.html

Description: Multimodal transportation choices invigorate the economy and connect people in small towns and cities and facilitate transportation of goods and people to other states and nations. NMDOT focuses on the following modes of travel: transit, rail, aviation and highways. We've strengthened our commitment to traffic safety, environmental excellence, and complete planning, design and engineering services.

Majors: Environmental Engineering, Civil Engineering

Jobs: Full-Time.

New Mexico Tech - ITC*

https://www.nmt.edu/itc/

Description: The New Mexico Tech Information Technology and Communications department (ITC). It oversees. The Help Desk, Computer Labs., Google Services, Campus Wireless, the Campus Network, and some Software and Computer Repair.

New Mexico Tech - Cybersecurity Centers*

https://www.nmt.edu/cybersecurity/

Description: New Mexico Tech is developing two closely-related cybersecurity centers, one focused on cybersecurity education and the other focused on economic development for New Mexico. The two centers are overseen by a single director, Dr. Lorie M. Liebrock, who reports to the Vice President of Academic Affairs and works closely on economic development with the Executive Director of the NMT Office of Innovation Commercialization.

NMSU– College of Arts & Sciences*

https://artsci.nmsu.edu/

Description: The College of Arts and Sciences is the intellectual core of New Mexico State University, providing cutting-edge academic programs supported by active research and creative activities. The College provides the foundational education for every NMSU student and a wide array of degrees preparing students to be life-long learners, knowledgeable and responsible citizens of our world. We are the largest College at the state's land grant university in the southern part of the Land of Enchantment.

Majors: All Majors

Jobs: Graduate School

New Mexico Tech - ICASA*

http://www.icasa.nmt.edu/

Description: The Institute for Complex Additive Systems Analysis (ICASA) is a research institute housed at NMT and supported by faculty, staff, and students with backgrounds in computer science, mathematics, engineering, technical communications, and management. We are Looking for folks that can do software development, research into complex systems and critical infrastructure systems, and big-data applications.

Majors: Electrical Engineering, Computer Science, Mathematics.

Jobs: On Campus Employment, Full-Time, Internship.

Northwestern Mutual*

https://www.northwesternmutual.com/

Description: Northwestern Mutual - New Mexico team is currently recruiting top talent for our College Financial Representative (CFR) Internship or Post-graduate program. Northwestern Mutual has been helping clients achieve financial security for over 160 years. Join us in carrying on the tradition. As a CFR you will receive real-world experience and discover a career with flexibility and rewards. Team work. Training. Hard work. Fun. It's part of what has made the Northwestern Mutual Internship Program a Top 10 Internship for 22 consecutive years in a row. Stop by or contact us at milie.salguero@nm.com for more information.

Majors: All Majors.

Jobs: Full-Time, Internship.
OpenEye Scientific Software, Inc.

http://www.eyesopen.com

Description: OpenEye Scientific Software, Inc. is a C-class corporation wholly owned by its employees and friends and financed by the success of its products. OpenEye is a software development company. OpenEye develops large-scale modeling applications and toolkits, primarily geared towards drug discovery and design. The software is designed for scientific rigor, as well as speed, scalability, and platform independence.

Majors: Computer Science, Biology, Chemistry, Physics, Information Technology

Jobs: Full-Time, Internship

Peabody Energy*

http://www.peabodyenergy.com/

Description: Peabody is the leading global pure-play coal company, serving power and steel customers in more than 25 countries on six continents. Peabody offers significant scale, high-quality assets, and diversity in geography and products. Peabody is guided by seven core values: safety, customer focus, leadership, people, excellence, integrity and sustainability.

Jobs: Full-Time, Internship

Puget Sound Naval Shipyards and Intermediate Maintenance Facility

https://www.navsea.navy.mil/home/shipyards/psns-imf/

Description: Puget Sound Naval Shipyards and Intermediate Maintenance Facility (PSNS & IMF) is filling entry level engineering positions for interested and qualified civilian students with majors in: Electrical Engineering, Mechanical Engineering, Industrial Engineering, Civil Engineering, Structural Engineering, Nuclear Engineering, Chemical Engineering, Metallurgical Engineering, Material Science, and Naval Architecture.

Majors: Environmental Engineering, Chemical Engineering, Civil Engineering, Materials Engineering, Mechanical Engineering, Electrical Engineering

Jobs: Full-Time, Internship

Rincon Research Corporation

http://www.rincon.com

Description: At Rincon Research Corporation, our core business is to design, build, test, and field digital signal processing (DSP) products and services for the United States Defense and Intelligence communities. We use our superior expertise to serve our customers with a range of technologies: • Signals collection, analysis, and processing • GPS Applications • DSP systems development • DSP infrastructure development • Orbit analysis • High-performance electronics development and production We deploy our pioneering technologies for the U.S. Government worldwide to help ensure our national security, combat terrorist threats, and safeguard vital national resources.

Majors: Computer Science, Physics, Mathematics, Electrical Engineering, Mechanical Engineering

Jobs: Full-Time, Internship

Sandia National Laboratories

http://www.sandia.gov/

Description: For over 60 years, Sandia has delivered essential science and technology to resolve the nation’s most challenging security issues. A strong science, technology, and engineering foundation enables our vision to be the nation’s premier science and engineering laboratory for national security and technology innovation, we recruit the best and the brightest, equip them with world-class research tools & facilities, and provide opportunities to collaborate with technical experts from many different scientific disciplines.

Majors: Biomedical Sciences, Chemical Engineering, Chemistry, Computer Science, Electrical Engineering, Information Technology, Management, Mathematics, Mechanical Engineering, Materials Engineering, Physics, Psychology

Jobs: Full-Time, Internship, Fellowship

Sandwiched between Naval Shipyards and Intermediate Maintenance Facility

https://careers.sherwin-williams.com/home

Description: Founded in 1866, Sherwin-Williams is a global leader in the manufacture, development, distribution, and sale of paints, coatings and related products to professional, industrial, commercial, and retail customers. The company manufactures products under well-known brands such as Sherwin-Williams®, Valspar®, Dutch Boy®, Krylon®, Minwax®, Cabot® and many more. Sherwin-Williams branded products are sold exclusively through a chain of more than 4,100 company-operated stores and facilities, while the company’s other brands are sold through leading mass merchandisers, home centers, independent paint dealers, hardware stores, automotive retailers, and industrial distributors.

Majors: All Majors.

Jobs: Full-Time, Part-Time
Smith Engineering*
http://www.smithengineering.pro/
Description: Regional civil engineering firm based in New Mexico. Areas of expertise are transportation, water resources, utilities, survey, site development, structural, construction services and materials testing.

Majors: Environmental Engineering, Civil Engineering.

Jobs: Full-Time, Internship.

Souder Miller & Associates*
http://www.soudermiller.com
Description: Souder, Miller & Associates (SMA), is an employee-owned company that serves private and public clients throughout the Southwest and the Rocky Mountain region. SMA is an engineering, environmental and surveying firm established in 1985 with over 200 professionals in 14 office locations. Southwest Contractor ranked SMA in the top 20 of the largest 150 Engineering Firms in the Southwest and 3rd among the largest New Mexico Engineering firms for 2014.

Majors: Computer Science, Civil/Environmental Engineering, Earth and Environmental Sciences, Mineral Engineering

Jobs: Full-Time, Internship

Strategic Management Solutions, LLC. (SMSI)
http://www.smsi.us
Description: SMSI is a small northern New Mexico business specializing in national security missions for the nuclear weapons complex. Our customers rely on our expert management and technical consulting services focused on federal and large industrial clients for environmental management, national security missions, large infrastructure initiatives, and specialized operations and facilities. As a technical and management services provider and small business, SMSI knows that business success relies upon people – our clients, employees, and in the communities where we live and work.

Majors: Environmental Engineering, Computer Science, Mechanical Engineering, Materials Engineering, Electrical Engineering, Civil Engineering

Jobs: Full-Time

The National Radio Astronomy Observatory*
http://www.nrao.edu
Description: Founded in 1956, the NRAO provides state-of-the-art radio telescope facilities for use by the international scientific community. NRAO telescopes are open to all astronomers regardless of institutional or national affiliation. Observing time on NRAO telescopes is available on a competitive basis to qualified scientists after evaluation of research proposals on the basis of scientific merit, the capability of the instruments to do the work, and the availability of the telescope during the requested time. NRAO also provides both formal and informal programs in education and public outreach for teachers, students, the general public, and the media.
