***Letter of Addendum***

TO: All Offerors

FROM: Meradeth Montoya, Assistant Director of Purchasing

DATE: 06/16/2025

RE: RFP Number: RFP#2505021E- Amendment No. 3  
Commodity: Drone Detection System Lease for First Responder  
Training

***Please Note: This amendment is issued to amend the RFP as detailed below***

- Q1) Is NMIMT interested in identifying non-Remote ID drones?
- A1) We must be capable of detecting and tracking drones. You can identify any enhanced capabilities you may have.
- Q2) Would NMIMT be interested in seeing a cUAS solution that includes mitigation?
- A2) Our primary participant will be State, Local, Tribal or Territorial first responders. As this group is not legally authorized to conduct mitigation this is not a requirement. As the laws change, a follow on solution most likely would be pursued.
- Q3) Does NMIMT intend for the system to serve campus security beyond the FEMA training use case?
- A3) This system will be solely used for FEMA training purposes.

- Q4) Should NMIMT issue an addendum that substantially changes the scope of the RFP, could you please consider granting an extension to the proposal due date? With the Federal holiday on June 19th, the request for a printed submission, and no overnight delivery to Socorro, vendors have very little time between the 18th and when we would need to ship a proposal to meet the deadline.
- A4) We are not changing the original scope of detection only. Mitigation is not a legal option at this time. Due to time constraints, the RFP due date will not be extended at this time.

ALL OFFERORS ARE REQUIRED TO CONFIRM THE RECEIPT OF THIS AMENDMENT IN THEIR RESPONSE.  
ALL OTHER TERMS AND CONDITIONS OF THE RFP REMAIN UNCHANGED.
