FROM: Kimela Miller, CPO

DATE: 7/26/2024

RE: RFP Number: RFP# 2507001C, Amendment No. 2  
Commodity: Pressure Transducers and Installation

*Please note:*

This amendment is issued to answer question submitted regarding the project.

Q1) Do you intend to use your own cloud site for data collection? We can provide a very good product for this application if that is needed

A1) Yes, we plan to collect data on our cloud.

Q2) Where would you like to park this data? Do you have a state hydro base this data needs to be sent to? We can accommodate that as well.

A2) The data should be made available by API (see item 2.2 on RFP) and it will end up in a state database.

Q3) Lastly, as the above answers will have a material effect on our final proposal, we would like to request a due date extension for the final submittal of our proposal of one week from the time you are able to get us the answers requested.

A3) The RFP due date is extended to August 6, 2024.

The RFP is still scheduled to open on August 6, 2024 at 2:00 pm local time.
