Postdoctoral Research Fellow

The Department of Computer Science and Engineering at New Mexico Institute of Mining and Technology (New Mexico Tech) is seeking a Postdoctoral Research Fellow in the area of smart grid security and privacy. The expected start date is Sept. 15, 2019.

The successful candidate should possess a Ph.D. degree in Computer Science, Computer Engineering, Electrical Engineering or other closely related areas with a strong research background in smart grid security and privacy. The candidate should have a proven record in conducting high quality research, strong oral and written communication skills in English, excellent computer programming skills, desire to collaborate with other researchers, and mentor graduate and undergraduate students. Experiences in grant proposal writing is a plus.

The position is for 12 months and can be extended for another two years based on performance. The position will be paid at \$50K/year with benefits.

Interested applicants should email a cover letter, detailed CV, transcript(s), representative publications, and contact information of 2-3 references to Rosa Jaramillo (nmtjobapps@npe.nmt.edu). Review of applicants will begin on May 1, and continue until the position is filled.
