POSITION ANNOUNCEMENT

TITLE: SOFTWARE DEVELOPER (4)  DEPT: ICASA

REG ☒ TEMP ☐ FULL TIME ☒ PART TIME ☐

STARTING RATE or SALARY RANGE $65,000-$80,000

Employees being promoted to a higher classified position receive the minimum for the position or a pay rate adjustment of 8% whichever is greater.

INTERNAL POSTING THROUGH: October 28, 2019. CONSIDERATION WILL BE GIVEN FIRST TO TEMPORARY AND REGULAR TECH EMPLOYEES WHO APPLY WITHIN THE 7 DAY INTERNAL POSTING. APPLICATIONS RECEIVED AFTER THE 7 DAY POSTING MARGIN WILL BE CONSIDERED WITH OTHER OUTSIDE APPLICANTS.

JOB DUTIES:
The software developer will be responsible and capable of building out and maintaining large complete systems. This critical role must have a strong technical background, business acumen, strong leadership skills, and people-management skills. Analytical thinking also is very important, as this position often involves problem resolution and process development. The Software Developer will collaborate with mathematicians, research scientists, data scientists, data analysts and engineers (mechanical and electrical) and other team members on the implementation, testing, deployment and ICASA’s technology. The Software Developer will support the Institute for Complex Additive Systems Analysis (ICASA), a research division of New Mexico Institute of Mining & Technology (NMIMT) in a full spectrum of software design, development, test and implementation and technology transfer of ICASA’s analytical tool-sets to the customer. The Software Developer will provide technical contract support to ICASA’s customer base and provide internal support where needed. The candidate will work in an innovative and collaborative environment to address national security challenges through research and development in data science, geospatial science, computer science, complex systems, artificial intelligence, and machine learning.
