JOB SUMMARY:

This is a senior level technical specialist position in a research compliance division that oversees one or more functional areas of industrial security programs for the University. Serves as Special Security Officer (SSO) or Contractor Special Security Officer (CSSO). Develops, implements, and administers Sensitive Compartmented Information (SCI) security policies and procedures for classified/proprietary materials, documents, and equipment. Assesses security threats to the University and implements appropriate strategies and countermeasures. Reviews and analyzes data and devises risk minimization programs. Participates in a campus-wide regulatory compliance program. May serve as the University's representative to community and government agencies for industrial security matters. Creates, develops and delivers resources for security Programs. Serves as Site Security Manager (SSM). May serve as Alternate Facility Security Officer (AFSO). Possesses a high level of understanding and is able to implement security requirements applied to SCI operations under minimal supervision. This position is contingent upon contractual funds and is limited in term to 2 years, with the possibility of renewal.
