

To see how **100(0) and 200(0) level courses** course transfer between NM colleges/ universities, follow the **CROSSWALK** here

Please go to the HED link below and follow the instructions below

<https://ccns.hed.state.nm.us/>

Click on the link and follow these steps:

- Scroll about half way down the page and select the "Compare Schools" button on the left
- Then select the schools on the right (does not matter whether you pick NMT or the other school first)
- You can then select a specific course or a subject area
- Finally click the "Compare Courses" button and scroll down a bit: you will see a list of courses
 - The "NMCC" (New Mexico Common Course) number shows in the second column but the "old" number will still show in the respective schools (4th & 5th) columns
 - As long as a course number appears **in each column ON THE SAME ROW and the course is passed with a C or higher**, transfer credit is guaranteed

Please feel free to contact me:

- If there is no guaranteed transfer of a course you are interested in on the Crosswalk
- For any transfer credit information not provided by the Crosswalk
- If you have trouble using the Crosswalk
